

Car Seat / Booster Seat Safety Workshop

Clinic in the Park

Melinda Hoag Smith Center for Healthy Living

February 28, 2025

- In an effort to promote child safety, Clinic in the Park hosted an insightful and engaging car and booster seat safety workshop benefiting clients from the Melinda Hoag Smith Center for Healthy Living and the Oak View Family Resource Center.

- Led by **Erin Malone**, Certified Child Passenger Safety Technician & **Jessica Lopez** - CHOC, the workshop featured a powerful demonstration highlighting the real-life consequences of riding in a vehicle without proper protection.

The workshop provided crucial education on the importance of proper car and booster seat usage, and risks associated with incorrect installation.

- Thanks to the partnership with **Clinic in the Park** and the support from **Riva Nist Apodaca** with CCRA funding of **\$2,500**, a total of **45 children** benefited from this workshop.
 - **41 children** received **free car seats**
 - **4 children** received **free booster seats**

- This workshop not only provided essential safety knowledge but also empowered families with the resources they needed to protect their children while on the road.
- It's a meaningful step toward fostering a safe and healthy community.
